

Louisville Loop Mile Markers

The Louisville Loop is a 100-mile shared use, non-motorized path planned to encircle the city and link neighborhoods to parks and civic attractions. 19 miles of the Louisville Loop were built by The Parklands, connecting all four of our parks. Please be courteous to others while on the trail and respect both wildlife and natural areas.

Support maintenance of this trail as well as others in our donor-supported public park by becoming a Parklands Member! Visit www.theparklands.org/Member for more information.
