THE BROWN-FORMAN SILO CENTER

Atop the silo is an observation deck where you can overlook The Silo Center and the Floyds Fork Valley. As you take in the view, please be courteous to others and follow our Silo Lookout rules.

Thank you for doing your part to have a safe, enjoyable experience in the Silo Lookout.

What to Expect

The climb is strenuous! The Silo has 109 steps from the ground to the observation platform, equal to climbing a 6-story building. The narrow stairs have handrails, two-way traffic, and a landing every 16 steps.

There is no air conditioning and no elevator in the Silo. It may be noisy, humid, slippery and dim inside. Visitors with heart, respiratory or other medical conditions, or who have trouble climbing stairs, should use their own discretion as to whether or not they climb the steps to the top of the Silo.

We hope you enjoy the view from the top!
